Associate Editors

Subhash C Chauhan

Department of Pharmaceutical Sciences, Cancer Research Center, University of Tennessee Health Science Center, 19S Manassas Avenue, Memphis, TN, 38163, United States

Devi K

Melmaruvathur Adhi Parasakthi Institute of Medical Science and Research, India

Editor Advisory Board Members

JP Majra

BPS Government Medical College for Women, Khanpur Kalan, Haryana, India

Sue Ellen Levkoff

Director, College of Social Work, DeSaussure College- Room 133, University of South Carolina, Columbia, South Carolina 29208

Zaida Cordero-MacIntyre

Nutrition Dept. School of Public Health and Center for Health Care Disparities and Molecular Medicine School of Medicine Loma Linda University Loma Linda, CA 92350 USA, United States

Santosh Khokhar

Senior Lecturer of Food Biochemistry School of Food Science and Nutrition University of Leeds, Leeds LS2 9JT, UNITED KINGDOM, United Kingdom

Sun-Ok Lee

Department of Food Science University of Arkansas 2650 N. Young Ave. N-211 Fayetteville, AR 72704, USA, United States

B Sesikeran

Director, National Institute of Nutrition, (Indian Council of Medical Research) Near Tarnaka flyover. Jamai-Osmania PO, Hyderabad-500 007, India., India

Neena Joshi

Dept of Food Science and Nutrition University of Agricultural Sciences Karnataka, India, India

Sevas Publishing

R N Lakshmi Naidu, Publishing Editor (rnlnaidu@jbiochemtech.com)

Scope

“*Journal of Nutrition Research*” is a yearly journal published by “Sevas Publishing” on behalf of the Indian Association for Parenteral and Enteral Nutrition, India. The journal publishes advances in the field of nutrition research. It provides a medium for the rapid publication of full-length articles, mini-reviews of new and emerging products and short communications on all aspects of nutrition and food science. It is a unique source for scientists interested in food technology, food science and nutrition.

Cover

New advances in the study of nutrients, reproduction, athletic performance, aging, investigations in animal models, epidemiologic studies on nutrients and phytochemical intakes and novel analytical techniques, physical activity, performance, cognitive functions, metabolic syndrome, molecular nutrition and all aspects of nutrition

Major Keywords:

Areas of high interest, cover new advances in the study of nutrients, reproduction, athletic performance, aging, investigations in animal models, cell cultures that utilize methodologic approaches or techniques in biochemistry, immunology, molecular biology, toxicology, and physiology, Epidemiologic studies on nutrient and phytochemical intakes in human populations and novel analytical techniques, Nutrition & Physical activity/ performance, Nutrition and cognitive functions, Nutrition and metabolic syndrome, Molecular nutrition, Nutritional effects of food composition and processing, Nutrition epidemiology, Nutrition in developing countries, in vitro models and all aspects of nutrition.
